## Never stand still

### AutoFit cushion

Smart groove design on the cushion helps to automatically and effectively adjust on the nose bridge.

### Compact frame

Slim and clear forehead frame is able to fit 3 cushion sizes.

### Integrated structure

Integration of cushion and cushion frame provides more stability and convenience.

### Universal elbow

Free elbow design enables the patient to enjoy ease of use.

## Simplify the full face therapy

F5 do renovates your impression of full face mask with slim frame, groove- fit cushion and easy clip. All of the components above enable the patient to enjoy the ease of full face therapy.

### Slim frame

Transparent and slim main frame minimize the effect to your vision.

### Groove-fit cushion

Single layer of soft cushion with intelligent groove design fits different face shapes.

### Easy clip

Classic clip helps to lock or release as easily as possible.

### Ingenious swivel

Detachable swivel design separates mask from tubing conveniently when needed.

## Enlarge your vision by efficient face mask

F5A is one of the newest full face series. It is capable of auto adaptation to the nose bridge. Simple structure and light weight provide you with more comfortable and effective therapy.

### Auto-adaptation

The groove on the cushion is able to adapt itself to the nose bridge, maintaining low air leakage and limited face pressure.

### Liberty of vision

Based on the forehead frame-free design, users can embrace more vision with ease.

### Anti-asphyxia valve

Under the premise of security, the position of anti-asphyxia valve is adjusted in order to achieve more functions on a smaller elbow.

### More comfort

Due to the single-layer transitional design, the cushion touches the nose and face softly.
